DOI publishes preliminary health insurance rates for 2021

BOISE, ID – The Idaho Department of Insurance (DOI) received preliminary health insurance premium rates from health insurance carriers for plans sold starting January 2021.

The DOI is reviewing health insurance premium rate submissions from health insurance carriers for individual and small group plans sold starting 2021. These proposed health insurance premium rates are published on the DOI website at doi.idaho.gov/consumer/ratereview/. These health insurance premium rate submissions, including explanations for proposed increases, are under review by the Department. The DOI has the authority to determine the rates “unreasonable” if the requests are not adequately justified. Final rates will be publicly available October 1, 2020 on the DOI website.

“While the current pandemic has created a lot of uncertainty for most everyone, the proposed 2021 health insurance premium rates are similar or, in some cases, lower than their 2020 rates,” said Deputy Director Wes Trexler. “We will continue to review these rate submissions, and we welcome inquiries and comments from the public.”
