

Open Enrollment period for Medicare health and prescription drug plans.

Mark your calendar every year with these important dates - October 15 – December 7 as it may be the only chance you have each year to make a change to your Medicare health and prescription drug coverage.

New coverage begins, if you made a change during the open enrollment period, January 1 of each New Year. New costs and benefit changes also begin if you keep your existing Medicare health or prescription drug coverage and your plan makes changes.
