

## Railroad Retirement

[Benefits | RRB.Gov](https://rrb.gov/Benefits)

### **Railroad Retirement**

- They have the same Medicare benefit as everyone else who is eligible for Medicare, but the benefit is administered by the Rail Road Retirement Board. RRB only offers regular Original Medicare options just like the Social Security path. HOWEVER, if a retiree has another option offered through a company, they will want to provide documentation so that our counselors may compare plans with them.
- RR retirees usually receive Medicare and may want to enroll in either a Medigap or Medicare Advantage or Part D. They differ in that their Medicare Part B premium is deducted from the RR Board retirement benefit and NOT from Social Security. <https://rrb.gov/Benefits>
