NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Workers Compensation Exchange are presented on the basis of accounting practices prescribed or permitted by the Idaho Department of Insurance. The Idaho Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Idaho for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Idaho's insurance law. The National Association of Insurance Commissioners' (the "NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Idaho. The State has adopted certain prescribed accounting practices that differ from those found in the NAIC SAP. Specifically, Idaho allows the admission of furniture, fixtures, and equipment up to an aggregate, which shall not exceed at any one time 1% of the other assets. The Commissioner of Insurance has the right to permit other specific practices, which deviate from prescribed practices. The monetary effect on statutory surplus or income of using this accounting principle, which differs from the NAIC statutory accounting practices and procedures, is not material to the financial statements of Workers Compensation Exchange. Net investment income earned consists primarily of interest, dividends, and rent income less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Rent income is the imputed rent for the Company's occupancy of its own building. Net realized capital gains and losses are recognized on a specific identification basis when securities are sold, redeemed, or otherwise disposed.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of this statement requires management to make estimates and assumptions that affect the amounts reported in these financial statements and notes. Actual results could differ from these estimates.

C. Accounting Policy

Premiums are earned based upon the prior month's loss activity, general administrative expenses, and investment income. The policy period is indeterminate and not associated with any specific policy period limit. No unearned premium is written and no unearned premium reserve is established since there is no unexpired portion of premiums written.

Expenses incurred with operations of the business are charged to loss adjustment expenses and other underwriting expense. No new business is actively sought and no expenses are incurred to acquire new business.

1.Short-term investments

Short-term investments are stated at amortized value using the interest method.

2.Bonds not backed by other loans

Bonds not backed by other loans are stated at amortized cost using the interest method.

3.Common stocks

Common stocks are stated at fair value.

4.Preferred stocks

No preferred stocks were owned at December 31, 2025.

5.Mortgage loans

10.Anticipated Investment Income – Premium Deficiency Calculation

11.Unpaid Claims, Losses and Loss Adjustment Expenses

Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in the period determined. Unpaid losses and loss adjustments expenses are reported gross of any subrogation at December 31, 2025.

12.Capitalization policy for prepaid expenses and purchases.

The predefined capitalization threshold of \$2,500 has not changed from prior years.

D. Going Concern
