NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of United Heritage Property & Casualty Company are presented on the basis of accounting practices prescribed or permitted by the Idaho Department of Insurance.

The Idaho Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Idaho for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Idaho Insurance Law. The *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Idaho. However, the state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Further, the Insurance Commissioner has the right to allow specific permitted practices that deviate from prescribed practices. The Company has two practices prescribed by the state of Idaho that differ from NAIC SAP as described below.

Prescribed Practice Differences - Idaho insurance laws permit the inclusion of office equipment, furniture and private passenger automobiles deemed necessary for conduct of insurance business as admitted assets providing such assets do not exceed 1% of all other assets. In NAIC SAP, fixed assets are not admitted.

In NAIC SAP EDP equipment is to be depreciated over the lesser of its useful life or three years. Idaho Code states that the cost of electronic and mechanical machines shall be amortized in full over a period not to exceed ten calendar years. The Company depreciates EDP equipment over a five-year period in compliance with Idaho law. The amount of such equipment depreciation included in general expense for the years ended December 31, 2024, and 2023 were \$6,197 and \$10,274, respectively.

A reconciliation of the Company’s net income and capital and surplus between practices permitted and prescribed by the state of Idaho and NAIC SAP is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policies

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- 1) Short-term investments are stated at amortized cost.
- 2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method.
- 3) Common stocks are stated at market.
- 4) Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32.
- 5) The Company has no mortgage loans on real estate.
- 6) Loan-backed bonds are stated at amortized cost using the scientific interest method based upon anticipated prepayments, derived from market sources, which are reviewed on a quarterly basis. Prepayment assumptions for loan-backed bonds and structured securities were obtained from broker dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all securities.
- 7) The Company has no investments in, or control over any affiliated entities.
- 8) The Company has no investments in joint ventures, partnerships, or limited liability companies.
- 9) The Company has no derivatives.
- 10) The Company does not anticipate investment income as a factor in the premium deficiency calculation.
- 11) Unpaid losses and loss adjustment expenses are determined on an individual case basis. Incurred but not reported reserves are estimated and actuarially validated based on the Company’s past experience. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amounts are adequate, liability may be in excess of or less than the amount provided. The liability is continually reviewed, and adjustments are reflected throughout the year. Reinsurance recoveries are netted from liabilities and paid losses whenever the loss exceeds the Company’s retention.

- 12) The Company has not modified its capitalization policy from the prior period.
- 13) The Company does not have pharmaceutical rebate receivables.

D. Discontinuation of Operation

During 2024, the Company entered into renewal-rights sales agreements with two counterparties and initiated the non-renewal process to exit the business. Along with the P&C industry, the Company has experienced elevated underwriting losses driven by high inflation, under-insured motorists claims, catastrophic weather and wildfire losses, challenging and costly reinsurance, labor and supply chain problems, increasing litigation and social inflation and several other factors over the last three years. Even after restructuring efforts since 2021 as a small, regional carrier, these factors strained capital and surplus and accordingly the Company established a controlled runoff of the business that will result in zero policies in force by December 31, 2025. The Company has secured quota share reinsurance contracts and maintains active discussions with the state regulator, the Idaho Department of Insurance (“DOI”), to ensure the Company is still meeting its regulatory obligations throughout this process. The Company will continue to actively manage claims and reinsurance, the cancelation of vendor contracts and expenses, and all other actions necessary to wind down the business.

2. Accounting Changes and Corrections of Errors

During the current year’s financial statement preparation, there were no material changes in accounting principles and/or correction of errors.

The Company received \$476,620 in ERC Credits in cash in 2023, and recorded those refunds as Miscellaneous Income. The amounts received represent refunds due on 2021 Form 941-X Adjusted Employer’s Quarterly Federal Tax Return on Claim for Refund for the quarters ended March 31, 2021, June 30, 2021, and September 30, 2021.

20. Fair Value Measurements

The Company’s financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on SSAP 100. The three-tier fair value hierarchy of SSAP 100, which prioritizes the inputs used in the valuation methodologies, is as follows:

Level 1 – Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 – Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Valuations based on unobservable inputs reflecting the Company’s own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

(1) Fair Value Measurements at Reporting Date

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value

Total assets at fair value	\$ 89,672	\$ 5,054,888	\$ -	\$ -	\$ 5,144,560

(2) Level 3 pricing represents discounted cash flow analysis performed by the Company. Inputs include tranche hierarchy provided in the offering memorandum, constant assumed default rates and projections supplied by a third party, and cash flow model discount rates derived from publicly traded mutual funds in similar asset classes.

Description	Beginning Balance at 1/1/2024	Transfers into Level 3	Transfers out of Level 3	Total gains and (losses) included in Net Income	Total gains and (losses) included in Surplus	Purchases	Issuances	Sales	Settlements	Ending Balance at 12/31/24
Assets:										
Common Stock	-	-	-	-	-	-	-	-	-	\$ -
Total Assets	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

(3) There were no transfers into or out of Levels 1, 2, and 3 in the fair value hierarchy during 2024.

(4) Fair values for investment securities are based on prices received from a third-party pricing service that uses quoted market prices in active markets or observable market inputs other than quoted market prices. In general, investments classified within Level 3 use many of the same valuation techniques and inputs as in the Level 2. However, if key inputs are unobservable, or if the investments are less liquid and there is very limited trading activity, the investments are generally classified as Level 3.

Bonds: To measure their fair value, the reporting entity generally uses the market approach. Level 2 pricing represents quoted prices in markets that are not active, trades of identical or comparable securities, and benchmark yields.
