

## Nationwide Insurance Computer Attack

The Idaho Department of Insurance has received a letter from Nationwide Insurance informing us that their computer network had been criminally attacked. Nationwide has taken steps to contain the intrusion and ensure the safety of personal information contained on their system.

The Department encourages recipients of Nationwide's notification letter to contact the credit bureaus and place a freeze on credit information. Nationwide will provide free access to credit monitoring and identity theft protection services through Equifax to consumers whose information may be at risk.

For more information, visit [www.nationwide.com/notice.jsp](http://www.nationwide.com/notice.jsp) or call 800-760-1125.

To learn how to protect yourself from identity theft, visit the Federal Trade Commission website at [www.ftc.gov](http://www.ftc.gov).
