Introduction

The Department of Insurance is a state agency created to regulate the business of insurance in Idaho. State regulation of Idaho's insurance business began in 1901. In 1961 the Insurance Code was expanded and re-codified into Title 41, Idaho Code. When the executive branch of state government was reorganized in 1974, the Department of Insurance became one of twenty major departments of the executive branch. The director of the department is appointed by the governor and is subject to confirmation by the state senate.

The first, and perhaps the most significant, part of the strategic plan is our Mission Statement, which identifies what we do and why we do it. Our Vision Statement is a description of how we envision the future. Our Values describe how we interact with the people of the state and with each other.

The department's goal is to provide superior service to all customers. This goal forms the basis for all the department's regulatory responsibilities. The Goals on the following pages set forth broad outcomes desired for each of the department's core regulatory divisions to attain superior service levels. The Objectives and Strategies describe how the department will reach a particular goal. Performance Measures and Benchmarks are intended to gauge progress toward achieving goals. The Performance Measures and Benchmarks used in this plan were determined by assuming that existing staffing and funding levels continue throughout the term of the plan. Output Measures are used to quantify the services we provide.

The department fulfills its mission and duties through two divisions: The Insurance Division and the State Fire Marshal's Office. The Insurance Division consists of three regulatory bureaus overseen by the Deputy Director. Support services are provided by an administrative group reporting to the Director. The responsibilities can be summarized as follows:

Administration

The Director is responsible for the overall policy direction and management of the Department of Insurance. The Director's administration group includes the Deputy Director, the fiscal section with premium tax, and a public information specialist. The administration group provides oversight, guidance and strategic business partnerships to the Insurance Division and the State Fire Marshal.

Director Dean L. Cameron

Insurance Division

Company Activities Bureau

This bureau monitors and examines the financial condition of all insurance entities domiciled or authorized in the state of Idaho to transact insurance. The bureau assures compliance with Idaho law and that the financial obligations of each company to its policyholders will be met. The bureau reviews all applications of insurers, qualifying self-funded healthcare plans, and related entities seeking to do business in this state. They determine eligibility for a certificate of authority, registration, or license, based on the operational history, financial condition, and experience of the applicant. The bureau also licenses producers, adjusters, bail agents, third party administrators, and other licensees. All licensees report their continuing education to the bureau who also records producer appointments with insurers.

Consumer Services Bureau

This bureau researches consumer and industry complaints and provides assistance to consumers and the insurance industry on matters involving insurance contracts and potential violations of the insurance code. This bureau is also responsible for investigating criminal and civil violations of insurance laws, and referring cases involving both criminal and civil violations to the Attorney General for administrative action or criminal prosecution. Also within this bureau is Idaho's Senior Health Insurance Benefits Advisors (SHIBA) program which provides information, counseling and assistance on Medicare coverage issues to Idahoans through a network of local community volunteers and a free phone helpline.

Market Oversight Bureau

This bureau reviews insurance and self-funded rates and forms. It also regulates title agents, and performs market conduct analyses and examinations of insurers and self-funded plans domiciled in Idaho. The bureau meets the effective rate review standards for the individual and small group health insurance markets, retaining state-level regulatory authority. The bureau supports the Idaho Health Insurance Exchange in fulfilling the plan management requirements, reviewing and certifying health plans that meet the Qualified Health Plan standards. The bureau monitors changes to federal and state law that affect health plans and implements any necessary updates to Idaho insurance laws, rules or written guidance.

State Fire Marshal

The State Fire Marshal's Office participates in and coordinates an integrated statewide system designed to protect human life from fire and explosions through fire prevention, investigation and public education activities. The program involves fire prevention activities, fire/arson investigations, code enforcement and the operation of the National Fire Incident Reporting System. The State Fire Marshal's Office aids local fire and law enforcement agencies throughout the state.
