Idaho Department of Insurance Releases 2025 Health Insurance Survey Report

BOISE, ID *(November 20, 2026)* – The Idaho Department of Insurance has released its annual Health Insurance Survey Report, providing a snapshot of how Idahoans obtain health coverage and how insurance enrollment has changed over time.

The report highlights annual Health Insurance Survey data supplied by carriers licensed in Idaho that provide services or products to Idaho consumers. The compiled data is presented in the aggregate and compares a two-year survey period, with the primary focus on the number of Idaho lives covered at the end of each survey year.

Combined with other publicly available data sources, the report offers insight into long-term trends shaping Idaho's health insurance market.

"These annual survey results help us understand how Idahoans are accessing health coverage and how the market continues to evolve," said Idaho Department of Insurance Director Dean Cameron. "The report provides valuable information for consumers, policymakers, insurers, and others who follow insurance trends across our state."

Among the key findings, in 2025:

- 1,835,755 Idaho lives were covered by health insurance, an 18.4% increase since 2020, compared with 9.1% population growth during the same period.
- 1,227,105 Idahoans were covered by private health insurance – a 39.2% increase since 2020
- There was a 9.1% decrease in Idahoans covered by public health insurance (e.g. Medicare, Medicaid, VA)
- The estimated number of uninsured Idahoans was 190,423, representing 9.5% of the state's population.

The complete 2024-2025 Health Insurance Survey Report is available on the Department's website at https://doi.idaho.gov/wp-content/uploads/Health/Health-Insurance-Survey-2024-2025-Public.pdf.
