- Equipment Involved in Ignition (**637 – Toaster, 646 – Range, etc.**)
    - *Capture Brand, Type, Serial Numbers, etc. This helps with product recalls.

Structure Module
- Structure Type and Building Status
- Building Height, # of stories
- Total Square Footage OR Building Length and Width (Zillow and websites alike have this information)
- Story of Fire Origin, Fire Spread and Stories Damaged
- Materials Contributing to Flame Spread. If materials are different than what is selected in the Fire Module. If it's the same material. Check the box "No Flame Spread".
- Detectors. The sequence goes left to right, then the next row. If Undetermined, None, or Unknown is selected, do not move on to the next box.
- Automatic Extinguishing System. Same sequence and stop when Undetermined is selected.

Civilian Fire Casualty Module
Module is required when there is a citizen injured or death by the fire. Must be completed by the AHJ. Departments that gave aid does not fill this out.
(One module per civilian fire casualty)

Fire Service Casualty Module
This module is required when an injury, death, or exposure to the department's own Fire Service Personnel because of an incident.
(One module should be completed for each person if there are multiple injuries, deaths, or exposures)
